

YOUR CHILD MAY NEED A 2nd SHOT

Has your child had his or her 1st H1N1 shot or 1st seasonal flu shot?

For now, healthy children over the age of 3 do not need a second shot, **BUT...**

IF

your child has received his or her first **H1N1 flu shot** and is either:
a. under 3 years old, or
b. under 10 **and** has a chronic illness such as asthma, diabetes, etc.,

IF

your child is under 10 years old and has received the **seasonal flu shot** for the first time **ever**,

THEN

he or she requires a second seasonal flu shot after **28 days** to be fully protected.

THEN

he or she requires a second H1N1 flu shot after **21 days** to be fully protected.

In the communities,

please contact your health centre to arrange for a second H1N1 or seasonal flu shot.

In Whitehorse,

drop in at the health centre, 9010 Quartz Rd., Monday to Friday between 8 AM and 4 PM

Yukon
Health and Social Services

For more information about the flu and vaccinations, visit www.fightflu.ca, www.hss.gov.yk.ca or call 811.
