# Dental health is an important part of your child's health.

Yukon's Pre-School Dental Program is for children, newborn to five years of age. It is recommended that your child visit a dental therapist or dentist before their first birthday.

## Consultations

A pre-school dental therapist is available for consultations. You can meet with the therapist and get ideas and tips on how to keep your child's teeth and mouth healthy.

In Whitehorse, consultations are available at 9010 Quartz Road. The pre-school dental therapist has a schedule to visit communities outside of Whitehorse. To book a consultation with a pre-school dental therapist, please call 456-6510 or toll-free 1-800-661-0408, extension 6510.

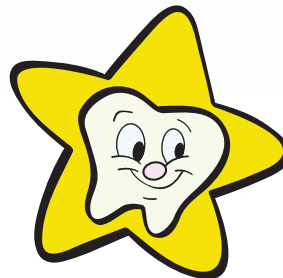

## Clinics

Pre-school/home-school clinics are held each month. At the clinic, your child will receive a dental examination. In Whitehorse, clinics are held at 9010 Quartz Road. Clinics are also held in communities outside of Whitehorse. To book an appointment, or see when a clinic will next be held in your community please call 667-8360 or toll-free 1-800-661-0408, extension 8360.

Once your child enters Kindergarten they can move into the Children's School Dental Program. For more information on this program visit [www.hss.gov.yk.ca/dentalhealth](http://www.hss.gov.yk.ca/dentalhealth) or call our office at the number listed on the back.

**Dental services provided by Yukon Children's Dental Program are supplied at no cost to the parent or guardian. They are covered by Yukon Health and Social Services.**
